

Across Safety Development Takes Best Aviation Risk and Safety Management Accolade at Aviation and Aerospace Awards

Chichester, U.K, 10 March 2023 – [Across Safety Development](https://www.acrosssafety.com) has been awarded Best Aviation Risk and Safety Management – UK in the Business Concept Aviation and Aerospace Awards. The award has been presented in recognition of the commitment, innovation and expertise that the consultancy has contributed to the aviation industry.

Specialising in aviation safety, regulation and risk management, Across Safety Development has been delivering straightforward and relatable advice to the aviation sector for almost 15 years. Founded by Anthony Venetz, a veteran of the aviation industry, Across Safety has worked with some of the biggest names in aviation as well as a host of successful innovators and start-ups.

The Across Safety team brings together a wealth of expertise both in the crewed and uncrewed sectors, becoming the go-to for companies seeking counsel on aviation risk, regulatory compliance and safety management. Anthony has also authored articles, papers and appeared in media interviews as an authority on aviation safety.

The judging criteria for the award focused upon nominees' excellence in the implementation and promotion of safety measures within the aviation sector and acknowledged efforts in enhancing security protocols, minimising risks and ensuring a safe operational environment.

"The Across Safety team is delighted to have received this award," said Anthony Venetz, Founder and Managing Director of Across Safety. "We are a very passionate and knowledgeable team, and we enjoy working hand-in-hand with our clients to ensure that they receive the most comprehensive, straightforward advice possible with easy-to-understand delivery. The award is testimony to this, and we thank those who voted for us."
