

BowTie Masterclass, 1 day course

£670+VAT

BowTie is a great way to manage high-consequence risk, but BowTie models are only as good as the information we put into them. Improving the way we use BowTie gives us a more effective risk management tool and improves safety assurance.

This course is designed to build upon and refine the skills of existing BowTie users.

Who is it for?

This course is for participants that are already familiar with BowTie but want to develop their understanding and skills to a higher level.

The course content is applicable to all types of risk and industries.

Attendees should already have completed the Across Safety 2 day BowTie XP course or similar, or have a good working knowledge of BowTieXP

What does the course cover?

1. Beyond the basics: how to draft high quality BowTies
2. Strategies for improving the utility of BowTies
3. Identification of common traps and how to deal with them
4. Insights for improving the qualitative effectiveness rating process
5. Strategies for maintaining consistency across all of the organisations BowTies
6. How to get the most out of BowTieXP's Advanced software features
7. Introduction to BowTieXP add-ons and BowTie Server

'Their trainers have great experience, delivering the training to a very high standard'

UK Civil Aviation Authority

'The training we received on Risk Management, methodology and software manipulation was exemplary, allowing us to move forward using Bowtie with the understanding, knowledge and confidence that what we were doing was best practice.' **Brize Norton**
and 2Gp Bowtie Development Officer, RAF UK

Case Studies:

1. When BowTies go bad
2. Simplifying Bowties without compromising on detail

About your trainer

Anthony Venetz is a seasoned aviation professional with over 35 years of experience in operational, regulatory, and safety roles. As a commercial pilot, he has flown a diverse range of aircraft across various operating environments. In his role as an aviation risk and safety expert, he is a trusted media commentator, frequently appearing on outlets such as the BBC to provide insight into high-profile aviation incidents and accidents.

Since 2012, Anthony has been a BowTie trainer and currently serves as Co-Chair of the UK's BowTie User Group, contributing to the advancement of risk management and safety methodologies in aviation.
